

## WALL MOUNT, UNDER CABINET, BUILD-IN RANGE HOODS

According to the National Institutes of Health, exposure to cooking-related contaminants is associated with a significant increase in pulmonary effects and symptoms of respiratory diseases. Our range hoods are designed to reduce cooking grease and odors to keep the air clean.

### Wall Mount Range Hoods

WM860A30/ B36

- Full body with seamless stainless steel. Product Dimension: 30L"x 19W"x 46H" (For Model No. WM860A30) 36L"x 19W"x 46H" (For Model No. WM860B36)
- 330W Motor with high airflow up to 860 CFM, 3 speed setting
- Included grease container, uses 6-inch round duct for exhaust vent, two 50W halogen lamps
- Featured baffle filters (dishwasher safe), which are easy to remove and clean

## Under Cabinet Range Hoods

UC650A30

UC300B30

UC700C30/ D30

- Full body with seamless stainless steel. Product Dimension:  
30L" x 22W" x 7H" (For Model No. UC650A30)  
29.8L" x 19.8W" x 5.5H" (For Model No. UC300B30)  
29.8L" x 22.9W" x 8.25H" (For Model No. UC700C30/ D30)
- Soft touch display screen with clock, auto delay shut-off function and filter indication (Excluding Model No. UC300B30)
- To use auto-clean function by simply filling in the liquid cleaner and pressing the function key and it will be completed within a minute (For Model No. UC700D30 Only)

Introducing the Auto-clean Function (For Model No. UC700D30 Only)

- Best-rated by consumers, it is economical, durable, powerful suction with multiple functions, ultra quiet performance.
- To use auto-clean function by simply filling in the liquid cleaner and pressing the function key, the high-speed spinning blower blades then distribute the cleaner onto the internal housing of the hood, degreasing and flushing unwanted residues into an easy-to-clean residue cup.
- The process will be completed within a minute, no additional cleaning is needed. No.1 choice to make your kitchen clean and quiet!
